

# DW series Portable Ultra-Low temperature Freezer

## DW 系列超低温移动冷链箱

The DW series is the ideal portable ultra-low temperature freezer for cold chain delivery, such as vaccine or biological products transport. It provides reliable and safe freezer storage in the field and delivery.

DW系列超低温移动冷链箱凭借其卓越的安全性与可靠性，广泛应用于生物医药制品（如疫苗等）的冷链运输。

Model	Setting Temperature Range	Storage Volume	Power	Exterior Dimensions L x W x D	Interior Dimensions L x W x D	Net Weight, empty
DW-70W45	-10°C ~ -80°C	45 liters	DC 24V	790 x 450 x 550 mm	367 x 327 x 367 mm	27 kg
DW-40W45	-10°C ~ -40°C	45 liters	DC 24V	790 x 450 x 550 mm	367 x 327 x 367 mm	27 kg
DW-30W45	10°C ~ -30°C	45 liters	DC 24V	790 x 450 x 550 mm	367 x 327 x 367 mm	27 kg
DW-18W45	10°C ~ -30°C	45 liters	DC 24V	790 x 450 x 550 mm	367 x 327 x 367 mm	27 kg
DW-4W45	10°C ~ -20°C	45 liters	DC 24V	790 x 450 x 550 mm	367 x 327 x 367 mm	27 kg

### FEATURES:

\* Stirling technology provides wide ultra-low temperature range of -10°C to -80°C

\* Lightweight, portable design makes perfect application for cold chain transport

\* Adaptable power 24V DC, optional vehicle-based 12V DC power or external battery devices

\* Utilizes 100% natural refrigerants for environmentally-friendly operations

\* 应用了斯特林超低温技术可实现温控范围 -10°C 至 -80°C

\* 轻量化、可移动的设计完美适用于冷链运输的周转

\* 直流 24V 电源兼容性高，亦可配备 12V 车载电源适配器或电池供电设备

\* 使用 100% 无温室效应冷媒，工作运行环保无污染
